

Social Media Analyst

Project Title	Social Media Analyst
Project Summary	Review and analyze social media commentary about posttraumatic stress disorder, working with VA's National Center for PTSD.
Country	United States

Project Description

VA's National Center for PTSD provides education and research on posttraumatic stress disorder. We are looking for someone who has an interest in Veterans issues, specifically PTSD, to analyze our social media channels, as well as review and monitor social media channels for information and postings about PTSD. We would love to expand to online news sources, time permitting. If there is an interest, writing for our channels is also welcome. We are active on Facebook and Twitter, and would love to explore other new media opportunities.

Required Skills or Interests

Skill(s)

Research

Social media management

Writing

Additional Information

We are a super fun team of communications professionals who are dedicated to helping trauma survivors find the most accurate and up-to-date information and resources about trauma and PTSD. For more information about us, check out our website at www.ptsd.va.gov
